From the Feed Sacks

January 2012

Volume 59

Congratulations!

Great job to EVERYONE who participated in the county and district livestock shows this year!!! **Good Luck** to everyone going on to the major shows in the months ahead!

Varmint Problems?

If you've been fighting with varmints of the Hill Country, think about purchasing a new live trap! Take advantage of the current special we have on the

Havahart 10"x12"x32" Live Traps -- \$31.98

While Supplies Last!!

Fight Weeds – Ahead of Time!

The recent rains combined with our loss of grass from the drought → huge weed problems!

For hard-to-control weeds like grassburs, start your first pre-emergent applications in just a few weeks.

- ✓ XL2G – 50# for large areas
- ✓ Amaze – 10# for smaller areas
- ✓ Suregreen Sandburr and Crabgrass Kilr 20# & 40# - combine fertilizer and pre-emergent weed control!

Don't forget your round pens and arena areas!

Early Weeds – Already Here!!!

Thistles and dandelions have already germinated and are lurking in wait, under the grass cover, ready to take over! Selective herbicides are more effective early rather than late on these tough weeds. Come to Double L Feed to try

- ✓ 2,4 – D
- ✓ Wipe Out
- ✓ Weed-Free Zone
- ✓ Weed Out with Q

Thank you for your continued business & support!

Double L Feed – your only LOCALLY OWNED feed store And a whole lot more!
